

AGRETO Platform Scale

Applications:

- Robust platform scale for most varied use, like pallets, big bags, containers, animals etc.
- Universal floor scale for farmers

Technical details platform:

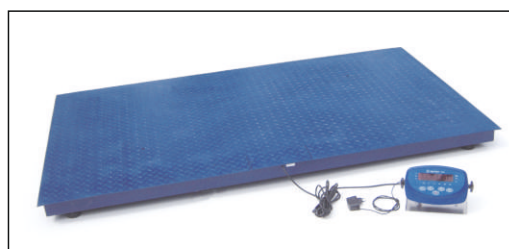

- Sturdy tubular construction with safety plate
- 4 shear beam load cells, protection class IP67
- 4 adjustable feet, total height 100 to 120 mm
- Junction box, accessible via maintenance cover
- 6 m cable to the weighing device
- Approvable variants on request

Technical details weighing device XK3:

- Plastic housing with stainless steel bracket
- Size including bracket 275x100x165 mm
- 6-digit red LED display
- Height of digits: 20 mm
- Resolution 0.5 kg/lb
- Auto-zero or manual zero
- Animal weighing mode, energy saving mode, summing function, zero stabilisation
- External power supply 110/220 VAC, built-in battery
- RS-232 interface for external display or PC/PLC connection
- Weighing indicators with special functions on request

Benefits:

- Sturdy and precise universal scale
- Easy to use, transportable
- High visible display
- High load rating
- Reliable readings even with restless animals
- Can be combined with all AGRETO weighing displays

platform	rated load	load cells
1x1.2 m	2000 kg 4400 lb	4x1 t
1.2x1.5 m	2000 kg 4400 lb	4x1 t
1.2x2 m	3000 kg 6600 lb	4x1.5 t
